#### AZTECS AT TENNESSEE FAIR

It is a far cry from the days of Monwill bring the Tennessee State Patr what many believe to be the only senrviving members of the Aztee race. Hum-The story of the Conquest of Mexico is a thrilling chapter in the history of the Western world. It is miraculous that Manager Con T. Kennedy in assembling his mighty amusement enterprise has been able to secure the last surviving members of a race which once played an son street, who has been visiting important part on this continent. While in Mexico last winter Manager Kennedy was informed that two Aztec children were living up in the mountains a few miles from Chihuahua. He lost no time in locating them and made arrangements with the Mexican government to bring the children to the United States for exhibition purposes, obligating himself to return them upon the conclusion of the present tour. The Aztec children are an educational feature, and will be on exhibition with the Con T. Kennedy Shows at the State Fair, September 29 to October 4.

#### AGRICULTURE AT STATE FAIR

From the colonial beginning of this sountry there has been some appreciation of the fact that our really big decelopment problems were agricultural problems. For many years this appreriation was merely latent. After vast tillable areas had been added to our possessions, and as the possibilities of our millions of fertile acres began to be understood, this appreciation increased amazingly. Long since it has become an active force in our national life. Today men to all walks of life are studying the farm, farmers and farming. Giant armies are marching forward under banners bearing such inscriptions as, "Back to the land," "Improve your seed," "Hoprobbing your soil," "Rotate your crops," Systematize your farm," "Raise mere and better live stock." You can secure information on all these subjects ad the Tennessee State Fair.
